

# ANDREW DURKIN

ASSOCIATE

## CAREER OVERVIEW

Andrew has over nineteen years of experience in the international construction and development industry, gained with leading project management, design consultancies and top tier contractors. Possessing a strong project management, communication and relationship building style with a comprehensive construction technical knowledge, Andrew has applied and demonstrated his skills across a diverse range of commercial, education, retail, residential and leisure sector new build and refurbishment projects for both private and public sector clients.

Andrew has been involved in a number of highly complex and high profile projects including RAAF Base Pearce a \$155m redevelopment project for the Department of Defence, QEII Multi-deck car park a PPP project for Department of Treasury and the Government Office Accommodation program of fitouts to 140 William, 140 Heritage and Albert Facey House.

Andrew was also Project Director on the National Convention Centre, Dublin a \$500m PPP State Government Project for the Office of Public Works.

Andrew is experienced in the management of multi-disciplinary consultant design teams, design brief development, stakeholder liaison, strategic project planning and programming, contract management and project delivery.
